Experience

EVOLPHIN SOFTWARE PVT LTD | Associate Software Engineer

📍 Feb 2023 - Present | Gurugram, Haryana, India
- Enhanced the **Zoom project** by integrating **React.js, Electron JS, and Java** to introduce innovative features and address technical issues, leading to a **30% boost in user satisfaction** and a **20% decrease in customer complaints**.
- Developed and implemented **ExtendScript** and **Typescript** for **Plugins project**, enhancing Zoom's integrations with various apps and third-party hardware, notably Adobe Premiere, resulting in a **40% increase in user engagement**.
- Developed a new request feature and a few minor features for the internal project. **Leave Management System (LMS)** built with TechStack (**Java, JSP, Springboot, Hibernate, and MySQL**).

COLLABERUS TECHNOLOGIES | Software Developer Intern

📍 Aug 2022 – Dec 2022 | New Delhi, India
- I learned and developed internal mobile applications using **JavaScript, React.js, and React Native.** The project **combines routing and webRTC** concepts.

SAASPECT PVT LTD | UI/UX Designer Intern

📍 Jul 2021 – Oct 2021 | Remote, India
- **Product Designing** : I understand the process of imagining, creating, and iterating products that solve users' problems or address specific needs in a given market.
- **Product Research and Designing** : I performed various research on existing competitive software products.

Competitions

CHERISH-DONATION WEB APP
- The" Cherish Donation " web application has advanced to the **semi-finals** of the Microsoft Imagine Cup under the **Lifestyle category in India.**
